Residents Against Mass Surveillance

You Are Being Tracked

Even if you've done nothing wrong.

Everyone is filmed.
All the time.
No warrants.
No oversight.

Your Movements Are Shared

Data is controlled by a private company. Flock has shared directly with ICE and other federal organizations.

Corporate Surveillance

Taxpayer dollars spent on surveillance means money leaving our community. That money could fund schools, libraries, and healthcare.

Stop The Abuse

Flock systems have already been misused for stalking, immigration enforcement, and abortion tracking. Tell your city councilors to terminate the contract!
